

RUBINETA

Caring from the first drop

Baltic sea, Lithuania

Rubineta is a European manufacturer of certified faucets and bathroom accessories. Our main production criteria are impeccable quality, modern design, innovation and outstanding service.

Each faucet is created by a team of designers, engineers, marketing and sales specialists. Our team's dedication expanded the Rubineta trademark and production in the Baltic countries, the Balkans, Eastern, Northern and Central Europe.

We are working with passion and desire to continuously improve and grow.

Why is it beneficial to work with Rubineta?

Not only you are getting a chance to work with European-quality brand, but also you will be able to receive a number of benefits that will enable you to create a profitable business.

District of Pilsen, Czech Republic

EFFECTIVE MARKETING STRATEGY

We will help to call attention to our products with strong competition and increasing demand. We will provide advertising and informational support.

WIDE ASSORTMENT

The wide selection of various designs and price ranges, which will ensure a stable profit and quick turnover.

CERTIFIED CONTROL SYSTEM

Our products have the necessary hygienic and standardisation certificates.

LONG-TERM DIRECT SUPPLY EXPERIENCE

Working with distributors and DIY networks in various countries. Associated experience of applying effective methods to increase sales and promote products.

PROMPT DELIVERY

Efficient work + always improving shipping processes = quick delivery from our warehouses. Saving time and working to make our clients 100% satisfied.

QUICK RESPONSE

Fast response to any issues. Always consulting our partners on the product range and effective ways to increase sales.

1999
Long-term experience in
production of faucets and
bathroom accessories

170
Production is registered in
170 countries. 24 countries
are selling our faucets and
bathroom accessories

600 k
The company produces
more than 600,000 faucets
per year

Modestas Vitkauskas,
Green Lakes, Lithuania

What is **TRIPLE CHECK**?

A unique faucet quality testing system is developed by Rubineta production quality specialists. It is used to control the chemical composition, physical parameters, and production technologies, because faucets must fully comply with quality standards. Also, we apply a 100% inspection of manufactured products before it gets to shop shelves.

Salt testing

Air testing

Water testing

Technical information

Ergonomic handle allows smooth adjustment of temperature and water pressure.

High-quality long lasting chrome-plated surface with uniform shine.

Cartridge: Mixes cold and hot water, controls pressure.

Aerator: Due to water mixing with air, a stream is uniform and soft. Allows using water economically.

Body: From high-quality brass. High content of copper guarantees durability and safety of materials, which contact with water.

Black Sea, Bulgaria

KUBO
Concealed
faucet

The construction of concealed faucets is installed into the wall. That is why such faucet does not require much space in your bathroom. The minimum number of external parts do not bind and provide flexibility to the process of bathroom interior arrangement. Delicate, comfortable, reliable.

PACKAGING

- Box:**
- faucets
 - set of faucets

- Blister:**
- accessories
 - shower products
 - parts

- Stylized box:**
- shower columns
 - faucet parts
 - accessories

- Sealed package with label:**
- faucet parts
 - accessories

100% TESTED – after assembly all our faucets are being 100% tested.

5-YEARS WARRANTY

HQ BRASS – high-quality brass with lowered content of harmful impurities is one of the most important component materials.

ANTI-NOISE – faucets with the ANTI-NOISE system work silently and do not cause discomfort.

BRILLIANT SHINE – durable and glossy surface on all our faucets. We use durable coating for our faucets: not only they shine, but also are more resistant to scratches, dents, limescale, rust.

AERATOR NEOPERL® Honeycomb – ensures long-lasting, quiet and flawless performance of a faucet.

AERATOR ANTILIME – we use NEOPERL® Cascade SLC aerators with silicone surface, which prevent formation of limescale and provide a steady stream of water over a long period of time. Aerator with ANTILIME function is easy to maintain, you simply swipe your finger over the silicon surface, and remove all the limescale.

EASY FIX – RUBINETA faucets are installed quickly and easily.

FLIESSER HOSES PEX – 60 CM!

Longer and more flexible hoses will facilitate connection of water flow in hard-to-reach areas.

- Resistant to bacteria
- Resistant to chlorine
- Resistant to high temperature
- Resistant to corrosion
- Lead-free
- Durable – 10 years warranty
- 100% hygienic

The smooth work of the faucet is ensured by a pressure valve with a rubber gasket.

Ceramic valve with 180° rotation angle and noise reducer absorber. It ensures long-lasting, silent and smooth functioning.

Ceramic valve FLUSH with a flow controller a noise limiter is produced in Germany. Rotation angle - 270°. High quality valve ensures stable, long lasting, silent and reliable functioning.

THERMO – faucet with built-in thermostat. Automatically mixes and maintains the set temperature of the water at the outlet. Prevent burns from hot water in case of cold water pressure drop in the system.

CARTRIDGE 25, 35, 40 mm – faucet is supplied with 25, 35, 40 mm ceramic cartridge, ensuring long-lasting and flawless performance.

Hygienic (no contact with the object).

Touchless faucet.

Easier handle movement.

HOSES – faucet is complemented with 30/40/45cm connection hoses.

Anti-vandal proof system (protection against theft, reliable fixing).

Mixing air with water.

DIVERTER with ceramic elements.

Saves water.

DIVERTER with function of automatic switch.

Very reliable fixing.

DIVERTER without function of automatic switch.

RUBINETA production is covered up by Civil Liability Insurance

Product Civil Liability Insurance protects the rights of consumers and reimburses the damage incurred by third parties (consumers), if the damage is related to the inadequate quality of RUBINETA production. Our customers are protected with additional guarantees and compensation in case of inconsistency in product's quality.

Buzău Mountains, Romania

We recommend taking care of faucets and shower accessories – in this way, you will extend their lifetime and avoid malfunctions while using a product:

- Every 1-2 months clean a faucet's aerator from dirt and lime. Dirt and sediments on the mesh can be cleaned with a strong water stream, and if you find lime build-up, soak the aerator for a couple of hours in high concentration vinegar;
- Clean a faucet's surface once a week using soft sponges or microfiber cloths. The stains on faucets (chrome-plated, coloured, gilded), that occur from the minerals, can be easily cleaned with soap or mild detergent. Wash a faucet with clean water and wipe with a soft cloth;
- Mineral deposits may form in a shower head same as in an aerator. If you regularly clean a shower head, it will extend its lifetime. A shower head is cleaned in the same way as an aerator;
- Periodically replace standard parts such as spacers, aerators;
- We recommend installing cleaning filters to avoid dirt particles in a faucet;
- If premises are not heated during winter and the temperature drops below 0 °C, it is vital to turn off water supply in a faucet and to drain it.
